Worship

for worshipers and worship leaders seeking greater  
discernment,  
resourcefulness,  
and spiritual growth  
in worship

How completely are you “in Christ” when you are worshipping? To what extent have you unlocked the treasures of baptism, Eucharist, Word, and prayer in your own worship life? Does your congregation see with more than the eyes of their heads? Can they discern spiritual realities – the Wind of the Spirit in worship (John 3:8)?

An emerging generation is uncovering *ancient ritual as innovative resource* and *discovering fresh insights* for worship elements to become a vehicle for the Spirit to move among us. We can move beyond worship “style” to deeper issues of *being formed by the Spirit* in worship, seeking spiritual maturity and depth of presence in worship, growing up into Christ Jesus (Eph. 4:15).

*On the Wings of the Wind* is for congregations and worship leaders seeking to *evoke and shape the faith of this generation* through a continually *deepening encounter with God* in worship. Through multi-media presentation, discussion, and real-life worship planning, we explore “*unleashing*” *elements of worship* – be they ancient or contemporary - from the bonds of overfamiliarity on the one hand and untapped spiritual resource on the other, in order to *encounter God more fully* and be formed spiritually through worship.
