

WE'RE FOR WELLNESS

The new Faubion School + Concordia University, a 3 to PhD® Community, is home to the Kaiser Permanente 3 to PhD® Wellness Center, offering dental care, physical exams, health screenings, vaccinations, mental health counseling, lab services, and referrals to specialty care.

KAISER
PERMANENTE®

The Kaiser Permanente 3 to PhD Wellness Center is a collaboration with 6 core providers, including Kaiser Permanente, Portland Public Schools, Faubion Elementary School, Concordia University, Trillium Family Services, and basics (formerly Pacific Foods) – all working together to create healthier, safer, and more educated communities.

Services are available to all students of Faubion School and Concordia University, regardless of insurance status or carrier.

WE'RE FOR EVERY BODY

Seeing the doctor and dentist regularly is an important part of staying healthy. Students can see both at the Kaiser Permanente 3 to PhD Wellness Center. Appointments are available to students during school hours – reducing time away from school.

Hours: Monday-Friday, 7 a.m.-4 p.m.

Schedule an appointment: 503-916-5908

For more information about services, scheduling, and payment, please visit: 3tophd.org

MEET YOUR CARE TEAM:

Susan Dierauf, MD

Medical Director

I joined Kaiser Permanente in 1998. As a pediatrician, my goal has always been to foster the mental, social, emotional, and physical health of children. The Wellness Center seems to be the best model for doing just that.

Jodeen Callaghan, DMD

Dentist

I started with Kaiser Permanente as a dental assistant, returned to school to become a dental hygienist, and then studied to become a dentist. I have been a dentist for more than 30 years. I enjoy looking for ways to improve the oral health of the communities we serve. Education and prevention of dental diseases can improve a person's overall health.

Ann Archer

Dental Hygienist

I transitioned from private practice to Kaiser Permanente in 2016. This unique practice setting allows collaboration between Kaiser Permanente's medical and dental teams, resulting in real changes in the health of my fellow Portlanders. My favorite subject in school was science. I love figuring out how things work.

Teresa Mendoza

Dental Assistant

I have been with Kaiser Permanente since March 2015. I look forward to helping the dentist take care of your teeth. I can also help educate you on how to maintain good oral health. My favorite subject in school was math because numbers are always predictable.

Tony Brown, NP

Nurse Practitioner

I have been with Kaiser Permanente since September 1989. I look forward to working with a new group of people in an innovative model for care – it's very exciting. When I was in school, my favorite subject was English. I like how language works to tell our stories.

Jim Burke, NP

Nurse Practitioner

I have worked for Kaiser Permanente as a nurse practitioner since August 2011. I look forward to collaborating with students, families, and educators in the Faubion community to promote the highest level of health and wellness. My favorite subjects in school were reading and creative writing, and reading is still one of my favorite pastimes.

Tannis Gray, LPN

Licensed Practical Nurse Lead

I have been with Kaiser Permanente for 5 1/2 years. I am very excited to be part of this new team and see how we can support the community, and I look forward to what is to come. In school, I loved PE, and in college, my favorite class was sports medicine.

Jeanie Rouse, LPN

Licensed Practical Nurse Lead

I've been with Kaiser Permanente for around a year. I came from the VA hospital. I look forward to interacting with students in this unique clinic. My favorite subjects in school were science and biology. I really love to learn, and for me, science is very concrete, but also continuously changes so I never get bored.
